

# Alternative, or B routes.

As an option to each daily route, we have created an “Alternative, or B Route.” This is designed to provide a shorter, less strenuous and somewhat different experience.

Just off the main routes in Downtown Harrisville lies the Harrisville Baptist Church. We have negotiated with them to allow for the use of their parking lot. So those who want a shorter roll, we suggest you drive down to Harrisville, park your car in the Church parking lot and jump on the route of the day.

You can leave your car there, ride the daily route while cutting off 8.2 hilly miles off the day.

**If you take this alternative, please be mindful you will be driving on the same roads as the group exiting and entering the park. We ask who ever is taking this alternative to leave a half hour before the pack of main riders. So please be careful and time your exit and entrance so you are not interfering with the pack. Thank you.**

Each daily route leaves from Main Street in Harrisville. The Church is just south of the daily route as described on the detail map above.
